

OSHM RAEEN

Software Developer | Testing, Debugging & Full-Stack Engineering | 3 Solo-Shipped Products
Auraiya, India · oshimraeen345@gmail.com · +91-8979598149 · [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

TECHNICAL SKILLS

Software Development: JavaScript/TypeScript · Java · Python · C++ · OOP & Design Patterns

Engineering Practice: Git/GitHub · Debugging & issue tracing · Testing · Documentation

Backend & APIs: Node.js · Express.js · REST API design

Databases: PostgreSQL · MySQL · MongoDB · Schema design

Frontend: React.js · Next.js · TypeScript · JavaScript (ES6+)

Applied AI: LLM API integration (Gemini AI, Groq AI) into production backend features

PROJECTS

MIVAI — AI-Powered Real-Time Collaboration & Assessment Platform — [Link](#) · [GitHub](#)

Apr 2026

Stack: TypeScript · React · Next.js · Node.js · Gemini AI · MongoDB · WebRTC · OAuth 2.0 · Yjs (CRDT)

- Built a real-time voice AI pipeline orchestrating transcription (STT), LLM inference, and voice synthesis (TTS) via Vapi, **achieving 2.4 s median turn latency across 50 measured conversation turns**.
- Debugged and validated a concurrency-safe matchmaking system under load, **achieving 0 duplicate room claims across 1,000 concurrent attempts through atomic database operations**.
- Built a real-time collaborative editor UI with live multi-user sync, **verified with 100/100 sync round trips and 0 missing updates** across cross-browser tests (React, Yjs CRDTs).

OshCode — Full-Stack Cloud IDE with AI Developer Tooling — [Link](#) · [GitHub](#)

Feb – Mar 2026

Stack: TypeScript · Next.js · Node.js · Groq AI · MySQL · Prisma ORM · WebSockets · NextAuth

- Built a browser-based IDE frontend with live file explorer, editor, and terminal UI, **reaching workspace-ready in 13.6s median across 15 sessions**.
- Integrated GitHub's OAuth API for repository imports, **reaching 4.2 s median end-to-end latency over 1,520 files** by parallelizing retrieval and materializing repositories into browser workspaces.
- Integrated Groq-powered coding assistance across **4 modes with 1.75 s median end-to-end latency across 20 measured requests** using Llama 3.3 70B through a Next.js API route.

FileStudio — Multimodal AI Document Processing Web App — [Link](#) · [GitHub](#)

Feb 2026

Stack: TypeScript · React · Next.js · Node.js · Gemini AI · pdf-lib · Sharp · REST APIs · TailwindCSS

- Integrated Gemini 2.5 Flash API for image/PDF diagnostics across 4 end-to-end workflows, adding a **10 MB input guard while keeping AI isolated from 3 stateless non-AI pipelines**.
- Built a drag-and-drop image upload/preview UI with client-side feedback, backed by a **WebP compression pipeline achieving 65% average size reduction (510ms median, 20 tests)**.
- Built 3 stateless data-processing workflows handling file uploads entirely in memory, with 0 persistent storage dependencies — supporting real-time processing without database overhead.

EDUCATION

B.Tech — Computer Science & Engineering *Expected 2027*

Dr. Ambedkar Institute of Technology for Divyangjan, Kanpur · CGPA: 7.4 · Class XII: 88.2% · Class X: 91.2%

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- Reached a Contest Rating of **1,578** on LeetCode (**Top 27.41% globally**) by solving 635 problems across DP, Graphs, Trees and Binary Search — direct evidence of algorithmic depth.
- Competed in 26 LeetCode Weekly & Biweekly Contests, applying complexity analysis to identify optimal algorithms for ambiguous, undefined problems under strict 60-minute time constraints.
- Certified in Full-Stack Web Development (Udemy), covering distributed system design, REST APIs, relational databases and cloud deployment— [View Credential](#)
